To find your lost cattle, you must venture through time to understand how beef cattle came to dominate the SD prairie and how they have impacted the state of South Dakota.</p> <p>Click with Interactive Mode</p> <p>Start</p> </div> <div data-bbox="126 940 324 976">  SOUTH DAKOTA STATE UNIVERSITY EXTENSION </div>	<p>Following the link to your Escape Room you will read the opening story and then click 'Start'</p>

<p>Example</p>  <p>Lock 1 Type of Lock:</p>	<p>Take a look at the lock. Based on what we see, what kind of lock do we have?</p> <p>“number”</p> <p>So, we will be looking for clues that lead us to a number of some sort.</p>
<p>Example</p> <p>Story Clue:</p> <p>To begin our journey, we travel back before the State of South Dakota existed. Back to when our home state was known as the Dakota Territory and a large portion of it set aside as part of the Great Sioux Reservation.</p> <p>The Great Sioux Reservation was formed by the Fort Laramie Treaty in this year. This Treaty between the U.S. Government and the Sioux and Arapaho established the Great Sioux Reservation consisting of what is now the western half of South Dakota, including the Black Hills. The treaty proposed to:</p> <ul style="list-style-type: none"> • Set aside land for the Sioux west of the Missouri River, known as the Great Sioux Reservation. • Permit the Dakota and Lakota to hunt in areas of Nebraska, Wyoming, Montana, and North Dakota. • Provide clothing, blankets, and rations of food to be distributed to all Sioux living on the Great Sioux Reservation. 	<p>Let’s read the story. Is there any thing bolded that might provide a clue?</p> <p>“In this year”</p>
<p>Example</p> <p>Picture Clue:</p> 	<p><i>*This slide contains animations during slide show mode. These animations/mouse clicks are noted by a number in italicized parenthesis. *</i></p> <p>Based on the bolded words in the story, we know we are looking for a year. This is a picture of the Great Sioux Reservation. Any ideas what year this might be referring to? Look closely at the map.</p> <p>(1) “1868”</p>
<p>Example</p> 	<p>We can enter 1868 into the lock and hit submit. If it is correct, it will take us to the next lock.</p>
